

Model 12 & Model 25 Compact Airless Foamers

MODEL: 969912-B & 969925-B

OVERVIEW

Compact Airless Foamers are self-contained, hose-end foam guns for applying foaming chemicals to any surface up close or at a distance. These units use standard city water pressure to draw chemical concentrate from the attached bottle and blend it into the water stream. This accurately diluted solution draws in atmospheric air to increase the volume and is projected as a clinging, wet foam. Choose the Model 12 for smaller, more precise tasks or the Model 25 to apply foam faster.

Key Features

- Creates rich, wet foam which increases chemical contact time and effectiveness
- Foam provides visual confirmation of complete coverage
- Easy to use, all you need is chemical and a hose
- Durable! Machined in the USA, not molded
- Outlasts and outperforms similar molded plastic products
- Quick disconnect the foam assembly to rinse
- With less than half the flow rate of competing models, you save money
- Light, 22 oz chemical containers reduce wrist and arm fatigue as well as the risk of repetitive strain injuries
- No moving parts! Venturi action dilutes chemical consistently with precision metering tips
- Great performance with water pressure as low as 20 PSI
- Low flow (Model 12) - Up to 6' foam throw
- Medium flow (Model 25) - Up to 12' foam throw
- Higher water pressure will maximize foam throw
- Compact units are also offered as sprayers
- See more Lafferty chemical applicators in [Catalog 11](#)

Includes

- Machined polypropylene foam wand
- 22 oz chemical concentrate bottle
- 20 color-coded metering tips for setting dilution ratios
- Trigger gun with quick disconnects for rinsing
- Adjustable foam pattern (Model 12 only)

Options

Stainless Steel Hose Racks

Large	# 224150
Small	# 224145

Additional Bottles

Bottle, 22oz	# 709079

APPLICATIONS

- Agriculture/Horticulture
- Animal Health
- Vehicle Wash
- Food & Beverage
- Hatchery
- Industrial
- Janitorial/Sanitation
- Pharm/Bio
- School Hygiene
- Supermarkets
- And Many Other Applications!

REQUIREMENTS

Chemical Concentrate

Water:

Temperature	up to 160°F
Pressure	20-100 PSI
Flow - Model 12	0.54 GPM @ 40 PSI
Flow - Model 25	1.25 GPM @ 40 PSI
Supply Line	1/2"

*No-Gun Units
Available For All
Compact Foamers
and Sprayers*

Available from:

DEMA Australia
