CLASS

HAZCHEM

[0.50] [1] [5] [20] Lit

#### Application:

Because this is a dye-remover, it is essential to pretest this product on an inconspicuous area of the carpet or fabric and ensure the colours are not removed. When this test is ok, spray product onto stains, brush gently and leave for 3 to 5 minutes until the colour tends to go yellow or disappears. Extract with very hot water and flush out 5 times to remove the stain and the stain remover. On urine stains, do not extract with water, but vacuum and blot as much stain remover from the carpet as possible then allow to air-dry.

Ammonia 50 g/L  
Ethanolamine 80

*Direction of use: Do NOT dilute the product.*

**First Aid:** If poisoning occurs, contact a doctor or the Poison Information Centre (13 11 26). If swallowed, DO NOT induce vomiting. Give a glass of water. If skin contact occurs. Remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor.

**WARNING:** NOT TO BE TAKEN. KEEP OUT OF REACH OF CHILDREN.

Read safety direction before opening/using. Refer to MSDS for more information.

**No other warranties are given in respect of the product or its fitness for any particular application and no warranties or conditions are to be implied.**
