ADVANTAGE OF FOAM

Contact time maximizes chemistry's effectiveness

Visual marker for equipment operator

Expansion rates reduce water and chemical usage

Reduced labor costs

Single Door Foam Unit

SPECIFICATIONS

12'by 5' potential coverage area

Draws from chemical concentrate

All S.S. foam enhancer assembly

Fiberglass locking hinged box

The unit allows the control box to be mounted up to 150 feet away from the spray tip assembly. The new foam enhancing nozzle is constructed of Stainless Steel and produces twice the amount of foam as our poly spray tip assembly, which allows for shorter run times and a larger coverage area of foam. The unit can operate up to three nozzle assemblies at a time.
