ORANGE OIL

Liquid Hydrocarbons 720ml/l

ORANGE OIL is a water-soluble degreaser and solvent spotter based on natural orange-peel oil. It removes grease, oil, tar, ink adhesives, chewing gum and Blutak from metals, paintwork, carpets, fabrics, ceramic, glass and fibreglass surfaces. Because ORANGE OIL is water-soluble it can be rinsed away easily with water. ORANGE OIL is great for dissolving stains, degreasing engines, dewaxing cars, removing chewing gum and spotting carpets. It is biodegradable and based on regrowable resources. Application: ORANGE OIL should be used undiluted. Spray, wipe or brush neat product onto greasy or stained surface. Allow to soak in for 5 minutes, then wipe or wash clean with water. If used on carpet stains, pre-test before use and rinse product out thoroughly when stains have dissolved. Caution: ORANGE OIL may cause rubber and some plastics to swell. Please check before use on these materials. Wear Glove & Safety Glass.

Direction of use: DO NOT DILUTE

First Aid: If poisoning occurs, contact a doctor or the Poison Information Centre (13 11 26). If swallowed, DO NOT induce vomiting. Give a glass of water. If skin contact occurs. Remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor.

WARNING: NOT TO BE TAKEN. KEEP OUT OF REACH OF CHILDREN. Read safety direction before opening/using. Refer to MSDS for more information. **No other warranties are given in respect of the product or its fitness for any particular application and no warranties or conditions are to be implied.**
